

4th September 2023

Dear Parent/Carer,

You may have seen recent media coverage regarding Reinforced Autoclaved Aerated Concrete (RAAC) and its use in educational settings. RAAC is a lightweight form of concrete; because it is weaker than regular concrete, concerns have been raised about its long-term durability. The Department for Education (DfE) has recently changed its guidance to education settings on the management of RAAC to take a more precautionary approach.

We wanted to inform you that we are not affected by this decision as we do not have RAAC in any of our buildings and therefore they will continue to function as normal.

I hope that this offers reassurance however please do not hesitate to contact me if you have any further queries regarding this information.

Yours sincerely,

Miss J Gillies
Head Teacher
